

LEARNING MORE ABOUT SIR GRANGE!

ZOYSIA MATRELLA

Sir Grange is a fine bladed premium turf variety, which has high shade tolerance and very low nutrient and water requirements.

Perfect for domestic, commercial and low wear sports applications and areas of high shade. Variety is low maintenance and requires minimal nutrient and irrigation application once established. Suitable for most applications and can be left unmown for 12 months reaching a maximum leaf height of 60-80mm.

Important Tips for Installation:

- Install the grass as soon as possible after delivery
- Lay on a bed of 50 to 100mm of quality turf underlay
- Roll to compact new turf to improve contact with the soil
- Soak the newly laid turf thoroughly for 10 to 14 days after installation or until fully established
- Reduce irrigation once established and water only when the grass appears dry
- Mow as soon as the grass has rooted in to promote lateral growth.
- Mowing height 10mm to unmown.
- Full sun to heavy shade (minimum 3 hours direct sunlight per day)

Important Tips for Fertilising:

- Apply Lawn Solutions Fertiliser at a rate of 1kg/100m²
- Add nutrients in measured amounts and monitor growth and health of the grass before reapplying.
- Read more about fertilising here: <https://allturf solutions.com.au/when-to-fertilise-your-lawn/>

Important Tips for Irrigation:

- If watering is necessary once established, water only when there are signs of the grass dying out, as excess irrigation can hinder the grass rather than help
- Do not overwater in the cooler months
- If irrigation is needed, water deeply to soak the top 100mm of soil
- Water early morning for improved efficiency and plant health.
